

Bronze Plan - Creams, Ganache and Decoration

An intermediate reference for stable creams, basic ganache, crumb coating and controlled decoration.

01

Whipping cream

Keep cream, bowl and whisk cold. Stop when the required stable peak is reached.

02

Ganache

Use clean, dry tools and gentle heat. Mix from the centre to build a smooth emulsion.

03

Crumb coating

Apply a thin first coat to trap crumbs, then chill before the final finish.

04

Piping control

Hold the bag correctly and combine steady pressure with even hand movement.

Learning reminder

Watch the plan videos, read these notes and then complete the 10-question quiz in your student login. A score of 70% or above passes.

Bronze Plan - Creams, Ganache and Decoration Checklist

Done	Action
[]	Keep cream chilled
[]	Avoid water in chocolate
[]	Chill crumb coat
[]	Test piping consistency
[]	Label stored fillings
[]	Separate allergens
