

Gold Plan - Advanced Production Skills

An advanced reference for professional finishes, recipe scaling, quality checks and organised production.

01

Recipe scaling

Scale every ingredient by the same factor and confirm that mixer, tin and oven capacity can handle the batch.

02

Chocolate tempering

Control the chocolate temperature to support shine, clean release and a firm snap.

03

Production planning

Sequence baking, cooling, filling and decorating to reduce waiting time and protect quality.

04

Quality standards

Record target weight, appearance, texture, flavour and storage instructions for every product.

Learning reminder

Watch the plan videos, read these notes and then complete the 10-question quiz in your student login. A score of 70% or above passes.

Gold Plan - Advanced Production Skills Checklist

Done	Action
[]	Use a standard recipe
[]	Confirm batch capacity
[]	Record temperatures
[]	Check finished weight
[]	Test shelf life
[]	Communicate allergens
