

Platinum Plan - Bakery Business Essentials

A business reference for product costing, pricing, inventory, packaging and customer service.

01

Product costing

Include ingredients, packaging, labour, delivery loss and a fair share of overheads.

02

Selling price

Set a price that covers total cost and planned profit while remaining appropriate for the target market.

03

Inventory control

Use FIFO, label stock clearly and define a reorder level for essential materials.

04

Customer handling

Confirm orders in writing, record changes and respond professionally when a complaint is received.

Learning reminder

Watch the plan videos, read these notes and then complete the 10-question quiz in your student login. A score of 70% or above passes.

Platinum Plan - Bakery Business Essentials Checklist

Done	Action
[]	Calculate full product cost
[]	Set planned margin
[]	Use FIFO
[]	Maintain batch records
[]	Choose protective packaging
[]	Track customer feedback
