

Silver Plan - Baking Foundations

A starter reference for accurate measuring, safe preparation, cake mixing and oven control.

01

Workstation setup

Clean and dry the work area. Keep tools, ingredients and weighing scale ready before mixing.

02

Accurate measuring

Use a digital scale. Weigh each ingredient separately and follow the recipe order.

03

Basic cake mixing

Use room-temperature ingredients when the recipe requires them. Avoid overmixing after flour is added.

04

Oven control

Preheat fully, use the correct rack and avoid opening the door during the early baking stage.

Learning reminder

Watch the plan videos, read these notes and then complete the 10-question quiz in your student login. A score of 70% or above passes.

Silver Plan - Baking Foundations Checklist

Done	Action
[]	Read the full recipe
[]	Preheat the oven
[]	Prepare the tin
[]	Weigh ingredients
[]	Record baking time
[]	Cool before decorating
